

## Arduino Train Speedometer Notes

Slides from the clinic:

 [\\_TRAIN SPEEDOMETER.pptx](#)

Here are the links to web sites related to the Train Speedometer presentation. The first two are more detailed descriptions of the project than what I covered during the ZoomTRAK presentation. The third is a repository containing the Arduino codes I was running. Anybody who needs more information can contact me directly at [twrackers@gmail.com](mailto:twrackers@gmail.com) .
